International Airport (GUM)**

Up to 12 flights per day to 15 destinations

Guam and Micronesia's Hometown Airline

Proudly serving Guam for more than 55 years. In 2025, United flew more than one million passengers and 7.9 million kilograms of cargo, including critical medical supplies.

Travel Experience Transformed

Introducing Boeing 737 MAX 8 airplanes that offer screens in every seatback, Bluetooth connectivity, Wi-Fi, more extra-legroom seating, and larger overhead bin space.**

Giving Back to the Community

Dedicated supporter of numerous nonprofits in the region, providing over \$150,000 in annual donations and hundreds of volunteer hours from our 900+ local employees.

One of the Largest Local Employers

1,000+ employees in the Micronesia region,* including more than 900 in Guam.

Home Base

United City Ticket Office in Tiyan, Guam, offers in-person customer service and support.

Dedicated Tourism Partner

Proud to partner with the Guam Visitors Bureau and travel sector to further strengthen tourism and investment in Guam.

Largest Airline to Japan

More than 40 flights per week to Japan's three largest cities.

*Guam, Federated States of Micronesia, Republic of the Marshall Islands, and Koror

** By December, United expects all its narrowbody flights from Guam to be operated with a MAX 8 aircraft.

United is the largest airline in the world.* Our 110,000+ employees help 180 million customers get to more than 390 destinations across six continents each year.

Largest Airline in the World

United is officially the world's largest airline*, connecting passengers to more than 390 destinations around the world and is the only U.S. legacy carrier serving more than 85 of these destinations.

The Flag Carrier of the United States

United is the leading carrier across the Atlantic and Pacific, offering direct flights to international cities in Asia and Australia, Europe, Latin America, the Middle East and Africa.

Winning Brand-Loyal Customers

United expects to take delivery of more than 250 aircraft by April 2028 — the most of any airline in a two-year period. Since 2021, United has completed 70% of its plan to retrofit its mainline, narrow-body fleet. Starlink installations are accelerating and United expects to bring fast, free Wi-Fi for MileagePlus® members to the whole fleet by the end of 2027. As part of United's growth, the airline hired more than 13,000 employees in 2025.

Industry-Leading Loyalty Program

130+ million MileagePlus® members can earn travel benefits, Premier® status and use miles to pay for flights, hotels, cars, gift cards, snacks, entertainment and more. United miles never expire and there are no blackout dates for award seats.

United Aviate Academy

United is the only major U.S. airline to own its own pilot school, where we are developing the next generation of talented, motivated aviators all while upholding our world-class safety and training standards.

Elevating the Customer Experience

United is modernizing its fleet, adding new aircraft variants, creating a new experience for transcontinental travelers and introducing new onboard products for every customer, reinforcing United's position as a leading premium airline. New aircraft types coming include the "Coastliner" Airbus A321neo, the "Born to Explore" Airbus A321XLR and the new CRJ450 with a spacious United First cabin. The airline plans to add United Relax RowSM across a row of United Economy®-class seats on more than 200 Boeing 787 and 777 widebody aircraft by 2030. United's new and updated planes will have screens in every seat, larger bins and Bluetooth connectivity, with game-changing Wi-Fi from Starlink added to more aircraft every day.

Innovation in Aviation and Aerospace

United Airlines Ventures® (UAV) is making investments that aim to redefine commercial air travel for decades, including next-generation air traffic management and aviation infrastructure, cutting-edge aerospace technologies, and AI-driven travel innovation.

Pioneering the Use of Sustainable Aviation Fuel (SAF)

United first used a Sustainable Aviation Fuel (SAF) blend in 2016 at LAX and today the airline has grown its SAF use to six hubs — LAX, SFO, ORD, IAH, EWR and IAD.

2026 Network Stats

- 390+ destinations (airports served)
- 246 domestic destinations (airports served)
- 47 international destinations (airports served)
- 5,100+ daily departures
- More than 180 million projected customers in 2026

*Measured by available seat miles and traffic.
